

Cosigo Affidavit and Disclosure Package

This document provides the complete, integrated affidavit and disclosure framework for Cosigo participation, including sovereign and non-sovereign execution paths, evidentiary anchoring, hypothecation disclosure, and satellite custodian addenda. It is designed to surface risk explicitly, avoid implied guarantees or fiduciary duties, and preserve evidentiary clarity over time.

I. Capacity Election (Required for All Affidavits)

Declaration of Capacity

I, the undersigned, execute this affidavit in one of the following capacities (select one):

- As a private individual acting in a **non-sovereign capacity** under applicable law.
- As a **sovereign individual** asserting original standing without waiver of rights.

This election is made solely for the purpose of clarifying capacity and does not constitute a claim of exemption, immunity, superiority, or special privilege under any legal system.

II. Physical Silver Evidence Declaration (Required)

Physical Asset Evidence Declaration

The undersigned affirms that a continuous, unedited audiovisual recording documenting the physical silver holdings referenced herein was created on the date stated below. The recording depicts the form, quantity, markings, and handling of the referenced silver without interruption.

SHA-256 checksum of evidence file:

[INSERT CHECKSUM]

Any alteration to the recording would produce a mismatched hash and invalidate the evidence. The original file is retained under the control of the declarant at the location disclosed below.

Date of recording: ____

Storage location / custodian of file: _____

III. Disclosure of Reuse, Hypothecation, and Third-Party Claims

I acknowledge and affirm that any asset or representation of value, including Cosigo tokens or custodial claims, may be subject to reuse, rehypothecation, abstraction, derivative reference, or misrepresentation by third parties beyond the control of Cosigo or its developers. This includes, without limitation, custodial over-issuance, off-chain derivatives, synthetic exposure, lending arrangements, or secondary claims.

Cosigo does not prevent, monitor, endorse, guarantee, or backstop such activity.

IV. No Guarantee and No Fiduciary Relationship

No Guarantee of Outcome or Protection

Cosigo and its associated contracts, registries, and satellite operations do not guarantee safety, preservation of value, liquidity, redemption, legal recognition, or protection from loss. Participation does not confer immunity from administrative action, institutional discretion, jurisdictional enforcement, fraud, theft, confiscation, force majeure, or regulatory change.

No Fiduciary Relationship

Participation in Cosigo does not create a fiduciary, agency, partnership, trustee, advisory, custodial, or representative relationship between participants, custodians, developers, maintainers, or any associated parties. No party undertakes a duty to act in the interest of another beyond the explicit mechanical execution of code or the limited scope of voluntary custodial services, if any.

V. Assumption of Risk and Voluntary Participation

I affirm that I am not relying on representations of safety, legality, profit, protection, liquidity, or remedy. I voluntarily assume all risks associated with participation, including loss of value, lack of redemption, regulatory action, custodial failure, misrepresentation, or absence of legal recourse.

I release all non-custodial parties from claims arising from outcomes beyond the explicit mechanical execution of code or the documented custody services, if any.

VI. Execution Paths

A. Sovereign Execution (No Notary)

This affidavit is executed as a sworn declaration of fact and intent, affirmed under penalty of perjury as applicable, and witnessed by two independent parties. No notarial acknowledgment is required or sought, as this declaration does not rely on state authentication for its validity or evidentiary value.

Declarant Signature: _____ **Date:** ___ **Location (City / State / Country):** _____ **Date:** ___

Witness 1 (Printed Name & Signature): _____ **Date:** ___ **Location:** _____ **Date:** ___

Witness 2 (Printed Name & Signature): _____ **Date:** ___ **Location:** _____ **Date:** ___

B. Non-Sovereign Execution (Notary Required)

This affidavit is executed in a non-sovereign capacity and is acknowledged before a duly authorized notary public for the purpose of identity verification and formal execution. The notary does not attest to the truth of the statements herein, only to the identity and voluntary execution of the declarant.

Declarant Signature: _____ **Date:** _____

Notary Acknowledgment:

State / Province: _____ **County / District:** _____

On this **_ day of** __, **20**__, before me, the undersigned notary public, personally appeared _____, proved to me through satisfactory evidence of identification to be the person whose name is signed above, and acknowledged that the execution of this affidavit was voluntary.

Notary Signature: _____

Printed Name: _____

Commission Number: ___ **Commission Expiration:** _____

(Notary Seal)

(Optional) **Witness 1:** _____ **Date:** _____

(Optional) **Witness 2:** _____ **Date:** _____

VII. Satellite Custodian Addendum

Satellite custodians operate independently. Cosigo does not audit, insure, supervise, or guarantee custodial behavior, reserve adequacy, solvency, or redemption performance. Any representations made by a custodian regarding physical backing, storage, or availability of assets are solely the responsibility of that custodian.

Failure of a custodian does not obligate Cosigo, other satellites, or participants to compensate losses.

Custodians acknowledge that over-issuance, rehypothecation, or misrepresentation constitutes their sole liability and does not bind Cosigo or other participants.

VIII. Plain-Language Website Notice (Public-Facing)

Cosigo does not promise safety, profit, protection, or justice.

It is possible to lose value. Custodians may fail. Claims may not be honored. Laws may change. Third parties may create claims or leverage you cannot see.

Cosigo exists to make value more visible, not to guarantee outcomes. Participation is voluntary. Exit is always available.

IX. Structural Closing Statement

No system that preserves value is immune to attempted reuse or abstraction. The distinction is whether such reuse can occur silently and at scale, or only visibly and locally. Cosigo is designed for the latter.
